

Problem Set 0, Problem 0

1. Select *File->Make a copy...* and save a copy of this template to your Google Drive using the name **ps0pr0**.
2. Type your response to the reading below.
3. Once you are done with your response, choose *File->Download->PDF document*, and save the PDF file on your machine. The resulting PDF file (**ps0pr0.pdf**) is the one that you will ultimately submit.

Gordon Ng
CS111 Section B1

The article Taking the Pain out of Painting added to my realm of imagination for 3-D printing. Not only did they describe changing the textures, colors, and patterns, but they also described geometrically altering casts for broken bones. This intrigued me the most because I once broke my arm and wearing that plastered cast caused a huge itch in my arm. I wish that this technology would become widely available so next time there would be a thermal scanning and a geometric cooling effect for my arm.
